

MINI INNOFADER PRO STX INSTALLATION (cont)

4) *INSTALL THE MINI INNOFADER PRO USING SILVER SCREWS*

Slide the fader into the slot, and hold it at the desired angle with one hand. Make sure the outer ring of screw holes aligns with the mini Innofader Pro holes.

5) *MOUNT THE INNOFADER NANO PLATE*

Install using the two black screws removed in step 1). Then press on the Coolorcap, leaving just enough gap to keep it from scraping. Happy scratching!
